We the People The United States is a country founded by the people for the people, but who are the people? Throughout history, the answer to that question has changed. Join us for this civics and U.S. history themed interactive presentation on the Museum's ZOOM account to learn how the government operates on a local, state and federal level and the role of the individual in each. We will think critically while investigating the history and relationship between these three governing bodies and how their operations impact our everyday life and community. 1-1.5 hours Grade Level: 6th-12th
